

# NAWAF FAWZI ALZANBAQI

.NET Full-Stack Developer | Cloud & Security Specialist

Jeddah, Saudi Arabia | 0581237853 | alzanbaqinawaf@gmail.com

Portfolio: [nawaf-alzanbaqi.dev](#) | [GitHub](#) | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Information Systems graduate and .NET Full-Stack Developer with around 3 years of hands-on development experience building scalable, production-ready web applications with C#, ASP.NET Core 8, and Clean Architecture. Skilled in REST API design, SQL Server architecture, and modern React & TypeScript front-ends, backed by a UI/UX design background and CompTIA certifications in cloud, server administration, and web security.

## PROFESSIONAL EXPERIENCE

### Software Developer

Mar 2026 - Present

#### Bold Brand — Development & Marketing Agency, Jeddah

- Build and maintain full-stack web applications with C# and ASP.NET Core 8, applying Clean Architecture for scalable, maintainable codebases.
- Design secure REST APIs with JWT authentication and Role-Based Access Control (RBAC), including a multi-tenant ERP with AES-256 data isolation.
- Deliver client web solutions across the solar-energy and retail sectors (e.g., Easy Power Group on Next.js 15) and manage deployment on VPS environments (Docker, SSL, domain configuration).

## KEY PROJECTS

- Bahrni** — Uber-Style Boat Booking Platform (.NET) [bahrni.sa](#)  
Stack: ASP.NET Core 8 MVC, EF Core 8, SQL Server, Identity (RBAC), Bootstrap 5 RTL
- Bold Brand ERP** — Multi-Tenant Cloud ERP [boldbrand1.com](#)  
Stack: Next.js, TypeScript, Multi-Tenant, AES-256, RBAC
- Enterprise Task Management** — Enterprise Workflow System (.NET) [github.com/Nawafalzanbaqi](#)  
Stack: ASP.NET Core 8, EF Core, SQL Server, Identity, SignalR, xUnit
- LMS** — Full-Stack Learning Management System  
Stack: ASP.NET Core 8, Clean Architecture, JWT, React, Recharts
- Medicare Plus** — Healthcare Information Platform [medicare-plus-demo.vercel.app](#)  
Stack: Next.js 16, React, TypeScript, Sanity CMS
- Raspberry Pi 5 Automation Hub** — Self-hosted 24/7 monitoring, backups & AI marketing for my sites  
Stack: Raspberry Pi 5, Python, Linux, Automation, LLM APIs

## TECHNICAL SKILLS

**Back-End & .NET:** C# (.NET 8), ASP.NET Core, Python, REST APIs

**Databases:** SQL Server, MySQL, PostgreSQL

**Front-End:** React, TypeScript, JavaScript, TailwindCSS

**Architecture & Security:** Clean Architecture, JWT, RBAC, Multi-Tenant

**Cloud & DevOps:** VPS, Docker, SSL / Domain Configuration

**Tools:** Git, GitHub, Agile / Project Management

## EDUCATION & TRAINING

**Bachelor of Information Systems** — King Abdulaziz University, Jeddah

### Software Development Bootcamp — Tuwaiq Academy

Engineered scalable web apps and RESTful APIs; architected SQL Server schemas with a focus on performance and clean, maintainable code.

### UI/UX Design Bootcamp — Crades Academy

Conducted user research and built high-fidelity prototypes; collaborated with design and marketing teams to ship front-end solutions.

## CERTIFICATIONS & LANGUAGES

**CompTIA Core:** Network+ • Security+ • Cloud+ • Server+

**CompTIA Stackable:** Secure Cloud Professional (CSCP) • Cloud Admin Professional (CCAP) • Network Infrastructure Professional (CNIP)

**Languages:** Arabic (Native) • English (Professional Working Proficiency)
