

NAWAF FAWZI ALZANBAQI

.NET Full-Stack Developer | React & Next.js | Enterprise Web Applications & Secure APIs

Jeddah, Saudi Arabia | 0581237853 | alzanbaqinawaf@gmail.com

Portfolio: nawaf-alzanbaqi.dev | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Information Systems graduate (King Abdulaziz University, 2024) and .NET Full-Stack Developer building secure, production-ready web applications with C#, ASP.NET Core 8, React, Next.js, and Clean Architecture. Experienced through a professional development role, a Tuwaiq Academy bootcamp, and multiple live client platforms — bilingual (Arabic RTL) healthcare, marine booking, B2B solar, and multi-tenant ERP. CompTIA-certified (cloud, security, server administration). Native Arabic, professional English.

PROFESSIONAL EXPERIENCE

Software Developer — Bold Brand (Development & Marketing Agency), Jeddah *Mar 2026 – Present*

- Build and maintain full-stack client applications with C# / ASP.NET Core 8 and React / Next.js, applying Clean Architecture across solar-energy and retail sectors.
- Design secure REST APIs with JWT and RBAC, including a multi-tenant ERP serving 9 tenants with AES-256 data isolation.
- Deploy and manage client solutions on VPS environments (Docker, SSL, domain configuration).

CCTV Operator — Securitas Saudi Arabia *Jul 2024 – Jan 2025*

- Monitored CCTV systems, logged incidents with accurate data entry and reporting, and provided basic technical support for control-room equipment.

FEATURED PROJECTS

MediCare Plus — Bilingual Healthcare Platform (Live) **Problem:** a Jeddah medical complex needed a bilingual (Arabic RTL / English) digital presence with easy patient booking. **Solution:** built a content-driven platform with an Arabic admin dashboard and WhatsApp-based booking.

Result: live production platform for a real client, fully bilingual with RTL support. *Stack: Next.js, Sanity CMS, TailwindCSS.*

Bahrni — Uber-Style Boat Booking Platform (bahrni.sa) **Problem:** boat rental across Saudi coasts was fragmented with no unified online booking. **Solution:** built real-time request handling, captain approval workflow, and automatic pricing with role-based access.

Result: production platform with an admin panel covering 15 coastal regions. *Stack: ASP.NET Core 8 MVC, EF Core 8, SQL Server, Identity (RBAC), Bootstrap 5 RTL.*

Bold Brand ERP — Multi-Tenant Cloud ERP (boldbrand1.com) **Problem:** the agency needed to run HR, finance, projects, and CRM for many clients from one system without data leakage. **Solution:** designed a four-module multi-tenant ERP with AES-256 data isolation, granular RBAC, and audit logging.

Result: one secure platform serving 9 tenants with fully isolated data and permissions. *Stack: Next.js, TypeScript, Prisma, Supabase, Multi-Tenant Architecture.*

Easy Power Group — B2B Solar Distribution Platform (easypowergroup.com) **Problem:** a certified solar-energy distributor needed a digital B2B sales channel. **Solution:** built a product catalog, quotation system, sales dashboard, and email integration.

Result: published production platform supporting the client's B2B sales operations. *Stack: Next.js 15, Drizzle ORM, Neon Postgres.*

LUMIÈRE — bilingual (Arabic RTL) luxury e-commerce storefront demonstrating RTL-first commerce design. *Stack: Next.js App Router, TypeScript, Prisma.*

Products in development: Wasl — multi-tenant Arabic CRM on WhatsApp Cloud API (Fastify, PostgreSQL, React RTL) · Taif CRM — Arabic CRM for web-design freelancers with lead scoring (FastAPI).

15+ additional projects and tools available on [GitHub](#).

TECHNICAL SKILLS

Back-End & .NET: C# (.NET 8), ASP.NET Core 8, REST API Design, Python

Front-End: React, Next.js (App Router), TypeScript, JavaScript, TailwindCSS, Bootstrap 5, Arabic RTL Design

Databases & ORM: SQL Server, PostgreSQL, MySQL, EF Core, Prisma, Drizzle

Architecture & Security: Clean Architecture, JWT, RBAC, Multi-Tenant, AES-256

Cloud & DevOps: Docker, VPS, SSL / Domain Configuration, CI/CD, Git, GitHub

Currently expanding: Angular, Oracle / PL/SQL, Microservices

EDUCATION & TRAINING

Bachelor of Information Systems — King Abdulaziz University, Jeddah 2024

Software Development Bootcamp (5 months) — Tuwaiq Academy (SAFCSP) · Sep 2025 – Jan 2026

UI/UX Design Bootcamp — Crades Academy · UI/UX design for the Ninja app

CERTIFICATIONS & LANGUAGES

CompTIA: Network+ · Security+ · Cloud+ · Server+ · CSCP · CCAP · CNIP **Languages:** Arabic (Native) · English (Professional)
